Monday, November 13 12:30-6:30pm

Time	Topic	Presenter
12:30pm	INTERACTIVE ACTIVITY	
1:00pm	WELCOMING STATEMENTS	Theo Agelopoulos, Autodesk
1:10pm	KEYNOTE	Former US Secretary of Transportation Anthony Foxx
1:40pm	KEYNOTE	Bernard Cathelain, Societé Grand Paris

Anthony Foxx is the 17th United States Secretary of Transportation and the former mayor of Charlotte, North Carolina. As Secretary of Transportation, he led an agency with more than 55,000 employees and a budget of \$70 billion. Sec. Foxx was responsible for overseeing American air, maritime, and surface transportation and ensuring that America maintained the safest, most efficient transportation system in the world. Sec. Foxx's career success is indicative of his demonstrated ability to push forward in an era of deep partisan divide. Crafting an ambitious agenda to modernize America, he pressed Congress to pass the nation's first long-term surface transportation bill in more than a decade. Called "the Great Connector" as a result of his efforts to update, streamline, optimize, and digitize the nation's transportation system.

Bernard Cathelain started his career in 1985 with the division of Ports and Ways of the engineering society BCEOM. In 1986, he started with the Department of Equipment of Val-d'Oise where he was successively in charge of the functional round-a-bout then large projects, before taking charge of transportation, circulation, and IT at the regional Council of Ile-de-France. He rejoined, in 1993, the Société des Autoroutes du Nord et de l'Est de la France (SANEF) where he was Director of Construction, then Director of Engineering, Development, and the Environment. Named Chief of the the Department of Project Management of the Aéroports de Paris (ADP) in July 2001, he became Director of Large Projects in 2003. Cathelain was Adjunct Director of Planning and Development, Member of the Executive Committee of ADP from January 2008 to June 2014. Additionally, he served as President of the Council of Administration of Hub Télécom from January 2012 to June 2014. In March 2015, Cathelain was named Member of the Executive Board of the Société du Grand Paris (SGP). He is in charge of design and implementation of Transport, Industry and Procurement and Engineering Environmental.
